What YOU learned: Study Strategies
Your ideas!
Results of after quizzes brainstorming

Strategies that work

- Predict test questions
- Teach someone else
- “Gist” paragraphs
- Acronyms
- Cute/memorable rhymes
- Discuss with other students
- Study over time
- Make comparisons from previous information
- Relate it to subjects you understand
- Meet with study group
- Make your own review
- Flash cards
- Think chronologically, re-organize information
- Record yourself saying information, play it back
- Color code your highlighting (separate by dates, important people, etc)

Strategies that suck

- Cram at the last minute
- Read while multitasking like texting
- Read with distractions
- Not study outside of class
- Crazy highlighting
- Read ten times without comprehension
- Not paying attention to detail
- Read right before you go to sleep
- Having an “I’ll just retest” mentality
- Underestimate the difficulty of the quiz
- Not going to tutoring when you have no understanding of material
- Not focusing on concepts
- Skimming material
- Assuming you’re a master at the material
